PROFESSIONAL SUMMARY

Frontend Engineer with strong experience building responsive, accessible, and high-performance web applications using **React, Next.js, TypeScript, and modern UI patterns**. Brings a unique background in **business analysis and project delivery**, enabling deep understanding of product requirements, user flows, and system behavior across banking and enterprise environments.

Proven ability to collaborate with backend teams, deliver production-ready features, and support cross-functional initiatives across Nigeria and other African subsidiaries. Focused on clean UI, optimal performance, and end-to-end ownership of technical tasks.

EXPERIENCE

SOFTWARE DEVELOPER   Jul 2023 – Present
Access Bank, Lagos

- Build and enhance customer-facing and internal applications using React, Next.js, TypeScript, Tailwind CSS, and REST APIs.
- Develop reusable UI components aligned with design guidelines for digital channels.
- Integrate complex backend services and ensure smooth data flow across business modules.
- Optimize application performance and ensure responsiveness across devices.
- Collaborate with QA teams for UAT, debugging, and release readiness.
- Contribute to sprint planning, feature scoping, and version control workflows (Git).

IT BUSINESS ANALYST   May 2023 – Jul 2025
Access Bank, Lagos

- Gathered and translated business requirements for internal and third-party applications.
- Led UAT cycles: test case creation, defect tracking, and stakeholder sign-off.
- Supported major digital transformation initiatives, including:
  a. **Payoutlet 2.0** – Access bank onboarding on eTranzact's Payoutlet 2.0.

b. **CCO Callover Process Automation** – digitization of cheque requests and regulatory enquiries using Processmaker.

c. **Project Everest (Flexcube 14.7 upgrade)** – coordinated bankwide end-user training for 9,000+ staff and served as BA for the data center collocation & network migration effort.

- Ensured full compliance alignment and maintained detailed requirements traceability.

FRONTEND DEVELOPER   Sep 2022 – Apr 2023
TadTech Creative, Port Harcourt

- Development of projects from UI wireframes using ReactJs
- Tutoring of web development and ReactJs students

CODING INSTRUCTOR   Apr 2022 – Sep 2022
Aceplora Coding Academy, Port Harcourt

- Taught HTML, CSS, JavaScript and guided students on capstone projects.
- Prepared course materials and delivered hands-on learning sessions.

TECHNICAL SKILLS

- **Languages & Frameworks:** JavaScript (ES6+), Typescript, React.js, Next.js, HTML, CSS3, Tailwind, Responsive UI development, API integration (REST, async workflows)
- **Backend & APIs:** Supabase, PostgreSQL, REST API integration, NodeJS, ExpressJs, MongoDB, php, mySQL
- **Dev Tools:** Git, GitHub, Vercel,
- **Product & Delivery:** Agile/scrum methodologies, Requirement gathering, Process documentation, UAT coordination, Interpretation of business needs

SOFT SKILLS

- Communication Skills (written and oral)
- Fast Learner, ability to quickly grasp new concepts
- Innovative
- Ability to Multitask
- Strong attention to detail
- Technology focused
- Team Player

PROJECTS

Aebis Unique Menu   Fullstack – NextJs, Supabase, Vercel

This is a single-vendor online food ordering platform built with Next.js and Supabase. It features dynamic menu management, mobile-responsive design, and location-based delivery fee calculation using the Google Maps API. Users can sign up, verify via email or OTP, and pay securely through

Paystack. The admin can manage orders, update statuses and configure the UI elements ensuring a seamless experience for both vendor and customers.

TadTech   Frontend – ReactJs

TadTech is majorly an edutech website where students sign up to learn tech skills and instructors sign up to teach these students. The company also provides other services which are majorly tech services. These services can be found on the website. This is a fullstack project but the server side has not been hosted so here's a link to the progress on the client side so far.
